

# Bishal Adhikari

BCA Graduate · IT Professional · Full-Stack Developer · AI Engineering Learner

9825150365 | adbishal569@gmail.com | biznity.online | Pokhara 26, Kaski, Nepal

## PROFESSIONAL SUMMARY

BCA graduate with 3 years of professional IT experience spanning web development, database management, content creation, and social media. Independently built and launched **biznity.online**, a full-stack Nepali business discovery platform using Next.js and Supabase. Experienced in the full software lifecycle — from UI/UX design to cloud deployment. Currently learning AI engineering with a focus on Python.

## WORK EXPERIENCE

**IT Manager** — Online Sewa Technology Pvt. Ltd. Aug 2023 – May 2026  
*Kathmandu, Nepal*

- Managed and maintained company database; performed health checks, minor fixes, and data integrity checks
- Conducted manual website testing, identified bugs, and reported issues to the development team
- Produced and edited video content for marketing using CapCut; created banners and graphics using Canva
- Created AI-assisted written content for website, blogs, and social media channels
- Managed official social media accounts — scheduling, posting, and audience engagement
- Gained hands-on backend experience with Supabase for data storage and authentication

**Backend & Database Intern** — Nepal Government (Dept. of Tourism) 2024  
*Final Year Internship, Nepal*

- Designed and managed relational database using MySQL for a government tourism web platform
- Handled backend data flow and assisted the team in integrating database with the front end

## PROJECTS

**Biznity** — Nepali Business Discovery Platform 2025 – Ongoing  
*biznity.online · Next.js, Supabase, Vercel, Cloudflare, Resend*

- Founded and built a full-stack platform enabling Nepali businesses to list services, products, events, deals, and jobs
- Implemented subscription system, dashboard analytics, and local payment integration (Khalti / eSewa)
- Deployed on Vercel with Cloudflare CDN; transactional email handled via Resend

**Canine Care (Flutter)** — Pet Care Mobile App 2025 · 8th Semester  
*Flutter (Dart), Final Year Project · LA Grandee International College*

- Rebuilt the Canine Care pet management app as a cross-platform mobile application using Flutter
- Led full development cycle: UI design, state management, and deployment as BCA final year project

**Canine Care (Web)** — Pet Care Web App 2024 · 6th Semester  
*PHP, HTML, CSS, JavaScript · LA Grandee International College*

- Developed the original Canine Care application as a web platform for the 6th semester academic project
- Handled front-end (HTML/CSS/JS) and back-end (PHP) including basic CRUD operations

## EDUCATION

**Bachelor of Computer Applications (BCA)** Graduated 2025  
*LA Grandee International College, Simalchour-8, Pokhara, Nepal*

- Coursework: C, C++, Java, Data Structures, Software Engineering, Web Development, Flutter, Visual Basic

**Higher Secondary — Science (Plus 2)** 2020  
*Kalika Secondary School, Rambazar, Pokhara, Nepal*
